

Explore Activity - Audited SQL Servers View

The Explore Activity Audited SQL Servers view displays the status of audit activity across your SQL Server environment. Use Summary tab to view the statistics and graphs to quickly identify issues so you can continue to ensure the correct level of compliance in your environment. View in detail your previously generated alerts by selecting the respective alert tab.

The screenshot shows the IDERA SQL Compliance Manager application window. The title bar reads 'IDERA SQL Compliance Manager'. The menu bar includes 'File', 'Edit', 'View', 'Auditing', 'Alerting', 'Agent', 'Tools', and 'Help'. Below the menu bar is a toolbar with 'New', a folder icon, a magnifying glass, and a 'Launch Web Console' button.

The left sidebar is titled 'Explore Activity' and contains a tree view under 'Audited SQL Servers'. The tree view shows a folder 'WIN-' containing several servers: 'IderaDashboardRepository', 'master', 'model', 'msdb', 'mssqlsystemresource', 'ReportServer', 'ReportServerTempDB', 'SQLcompliance', 'SQLcompliance_WIN-', 'SQLcomplianceProcessing', 'tempdb', and 'TESTING'.

The main content area is titled 'Audited SQL Servers' and has four tabs: 'Summary', 'Event Alerts', 'Data Alerts', and 'Status Alerts'. The 'Summary' tab is active. It contains a 'Common Tasks' section with icons for 'Register SQL Server', 'Monitor', 'Configure Access', 'Self-Audit', and 'Configure Alerting'. To the right of these tasks are buttons for '1 Day', '7 Days', '30 Days', and 'Span'.

Below the tasks, there are two main sections: 'System Status' and 'Enterprise Activity Report Card'. The 'System Status' section shows a green checkmark and the text 'All servers are OK'. It also displays a list of statistics: 'Registered SQL Servers: 1', 'Audited SQL Servers: 1', 'Audited Databases: 12', and 'Processed Events: 0'. Below this is a 'Recent Alerts' section with a list of alert levels: 'Severe: 0', 'High: 0', 'Medium: 0', and 'Low: 0'.

The 'Enterprise Activity Report Card' section has a sidebar with 'Event Alerts' and 'Logins'. The 'Logins' section is highlighted. It shows a message: 'Logins is not currently audited for all servers.' and 'No Data Available'. Below this is a table titled 'Login Activity Per Server' with columns 'Server', 'Max', and 'Threshold'. The table shows one entry for 'WIN-N' with 'Max: 0/day' and 'Threshold: None'.

The bottom status bar features a green checkmark icon and the text 'SQL Compliance Manager™'.
