

# View server status details

To see the detailed results of a specific operation, click the operation in the Backup/Restore Operation Status grid, and the Details area displays below. The Details area provides the following information:

Information	Definition
Statistics	Displays the database size, the size of the uncompressed backup, the size of the compressed backup, and the compression ratio achieved with this backup. The ratio is a measure of the storage savings achieved with SQL Safe compression technology. For more information about the storage space savings you can realize using SQL Safe, see <a href="#">Understand your total cost of operation (TCO)</a> .
Result Text	Displays text describing the result of the operation.
Files	Displays the complete path of the backup set file for the backup or restore.
Backup Set Description	Displays the description you specified for this backup.
Storage Options	Displays the storage options you specified for this backup.

SQL **safe** is a high-performance backup and recovery solution for your SQL Servers. [Learn more](#) > >
