What is SQL Safe?

Idera SQL Safe (SQL Safe) provides a high-performance backup and recovery solution for Microsoft SQL Server. SQL Safe saves money by reducing database backup times by up to 50% over native backups and reducing backup disk space requirements by up to 95%. SQL Safe also enables complete "hands-free" automated backups of your entire SQL Server infrastructure and ensures compliance with your organization's backup and recovery policies. From implementations with tens of SQL Servers to enterprises with hundreds of instances spread around the globe, SQL Safe is the only SQL Server backup and recovery solution that scales to meet the challenge.

SQL Safe is a high-performance backup and recovery solution for your SQL Servers. Learn more > >
