

Navigate the Idera Dashboard

What is the Idera Dashboard?

The **Idera Dashboard** is a common technology framework designed to support the entire Idera product suite. The **Idera Dashboard** allows users to get an overview of the status of their SQL Servers and hosted databases in a consolidated view, while providing users the means to drill into individual product dashboards for details.

The **Idera Dashboard** is comprised of the following tabs:

- Overview
- Details view
- Administration

What actions can be performed in the Overview tab of the Idera Dashboard?

In the **Idera Dashboard** users can glance at their registered products overall status through the **Overview** tab. This tab contains product widgets of all the products registered with the Idera Dashboard. By default the **Overview** tab contains the following widgets:

- Overall status
- Instance status
- Instance list
- Active alerts list

You can expand or collapse a widget by clicking . You can also view a widget in full size by clicking  or remove it by clicking .

Customize the Overview tab

Users can customize this view in the **Configure Navigation Order** section of the **Administration** view.

What actions can be performed in the Details view of the Idera Dashboard?

In the **Idera Dashboard** users can select specific metrics to display in the **Details** view tab. This tab contains product widgets of all the products registered with the **Idera Dashboard**. To view more about what widgets are available for SQL Safe, go to [Viewing SQL Safe on the Idera Dashboard](#).

You can expand or collapse a widget by clicking . You can also view a widget in full size by clicking  or remove it by clicking .

Customize the Details view tab

Users can customize this view in the **Configure Dashboard Views** section of the **Administration** view.

What actions can be performed in the Administration view of the Idera Dashboard?

In the **Idera Dashboard** all products show a common **Administration** tab, granted the logged-in user has administrator privileges. Selecting this tab, displays the Administration view which hosts a range of sections for performing administration-related actions.

The **Administration** view of the **Idera Dashboard** provides a central set of services related to specific actions such as:

- [Managing users](#)
- [Managing Products](#)
- [Managing Instances](#)
- [Customizing Navigation Order](#)
- [Customizing DBA Order](#)

For more information on each service and what configuration settings are available, visit each respective section.

SQL **Safe** is a high-performance backup and recovery solution for your SQL Servers. [Learn more > >](#)
