Encrypt Windows Password CLI Commands

SQL Safe provides you with CLI commands to help you manually encrypt plain-text password for Windows logins.

To perform EncryptWindowsPassword operations use the following command:

- SQLsafeCmd EncryptWindowsPassword <password>

Where:

Action	Description
<password>	Plain-text password to encrypt.

For detailed descriptions and available options, see the CLI Help (`SQLsafeCmd help EncryptWindowsPassword`).

SQL Safe is a high-performance backup and recovery solution for your SQL Servers. Learn more > >
