

Activating a license

To activate a license for the Idera SQL Comparison Toolset, go to **Start > Idera SQL Comparison Toolset > License Activation**. In the dialog window that appears, enter the license number you received and then click **Activate License**. The license activate utility will connect to a web service running on our web servers that will validate the license you provided. Within a few seconds you should see a confirmation message indicating that the product was successfully upgraded.

The screenshot shows the 'License Activation' dialog window for the Idera SQL comparison toolset. The window has a title bar with the text 'Idera SQL comparison toolset' and standard window controls. The main content area is titled 'License Activation' and includes the instruction 'Activate your license for Idera SQL comparison toolset.' Below this, there is a section for 'License Information' with a link 'View collected information'. Under 'License Information', there are two radio buttons: 'Activate license online' (selected) and 'Load license from file'. The 'Activate license online' section contains four text input fields: 'New License', 'Previous License', 'Name', and 'Email'. The 'Load license from file' section contains a text input field and a browse button. An 'Activate License' button is located at the bottom right of the 'License Information' section. Below this, there is a 'Request File' section with a paragraph of instructions and a list of four steps. A 'Generate Request File' button is located at the bottom right of the 'Request File' section. At the very bottom of the dialog is a 'Close' button.

If you are experiencing difficulty activating the product, please follow these four steps:

1. Enter the License Number you have received into the "New License" edit box. If you are upgrading from an old version, you should provide a valid license number for that version.
2. Click on the "Generate Request File" button to generate an activation request file. You will be prompted to specify a file name.
3. Email the file to licensing@idera.com. We will generate a license activation file and email it back to you.
4. Once you have received the license activation file from us, you may upgrade the product using the option "Load license from file".
