Create a Status Alert

Creating a Status Alert rule allows you to proactively identify potential issues in your IDERA SQL Compliance Manager deployment that could disrupt your ability to continue auditing. For more information, see Use Status Alerts to ensure compliance.

To create a Status Alert:

1. Select **Alert Rules** in the **Administration** tree.
2. Click **Status** on the **New Rule** ribbon.
3. Select the type of SQL Compliance Manager status that you want to alert on.
4. In the **Edit rule details** pane, define the criteria under which the alert should trigger, and then click **Next**.
5. Select the action you want SQL Compliance Manager to take when this alert triggers, and then click **Next**. To configure the email notification message or event log entry, use the links provided on the rule details pane.
6. Specify a name and appropriate alert level for this alert, review the summary, and then click **Finish**. By default, the new alert rule is enabled.

SQL Compliance Manager audits all activity on your server. Learn more > >
