

Managing products in the IDERA Dashboard

The IDERA Dashboard hosts IDERA products that register with the dashboard. The Products widget of the Administration view, allows users to view and manage registered products.

To edit or remove registered products, select **Manage Products** in the Administration view, and the Products window displays:

The screenshot shows the IDERA Dashboard Administration view. On the left, a sidebar contains links for Users, Instances, and Products. The Products link is highlighted with a red box. A red arrow points from this link to a 'Tips' box. The 'Tips' box contains two paragraphs of text. The main area of the dashboard displays a 'Products' window with a table of registered products. The table has columns for Product, Version, Registered, Location, and Credentials. Two products are listed: 'IderaDashboard' and 'SQLInventoryManager(sql...)'. Each product has edit and delete icons. A 'CLOSE' button is at the bottom right of the Products window.

ADMINISTRATION

Users
Give users permission to use the dashboard.
[Manage Users](#)

Instances
The Idera Dashboard tracks SQL Server instances to view and manage.
[Manage Instances](#)

Products
The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

Editing a product in the IDERA Dashboard

Clicking the Edit icon for an IDERA product allows you to edit the associated instance name, install location, user name and password for the account used to connect to the product, and the short or common name of the product. To edit a product, follow these steps:

1. In the list of products, click the **Edit** icon for the product you want to edit. IDERA Dashboard displays the edit Product Information dialog.

The screenshot shows the 'Edit Product Information' dialog. It has a title bar with a question mark and a close button. The dialog contains several input fields for editing product information. The fields are: Product Name, Instance Name, Version, Registered, Location, Connection User, Connection Password, and Short Name. Each field has a text input area. At the bottom of the dialog are two buttons: 'SAVE' and 'CANCEL'.

Edit Product Information

Product Name: SQLInventoryManager(sqlinventorymanager)

Instance Name: sqlinventorymanager

Version: 2.0.0.585

Registered: 09/04/2015 04:00 PM

Location: http://AUT-SQLALL-A01:9275/SQLInventoryManager/v1

Connection User: simpsons\administrator

Connection Password:

Short Name: SQLInventoryManager

[SAVE](#) [CANCEL](#)

2. Make the necessary changes.
3. Click **SAVE**.

Removing a product from the IDERA Dashboard

Clicking the Delete icon for an IDERA product allows you to unregister that product. Use the following steps to delete a product.

1. In the list of products, click the **Delete** icon for the product that you want to unregister. IDERA Dashboard displays a warning message that requires a confirmation whether you want to unregister that selection.

**Tips**

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

This screen lets you manage the credentials that the Idera Dashboard uses to connect to the registered products as well as manage the list of registered products.

Products ? X

Product	Version	Registered	Location	Credentials	
IderaDashboard	2.1.1.522	09/04/2015 03:49 PM	AUT-SQLALL-A01	Admin	 
SQLInventoryManager(sql...	2.0.0.585	09/04/2015 04:00 PM	http://AUT-SQLALL-A01:92...	simpsons\administrator	 

CLOSE

2. Click **Yes**. IDERA Dashboard unregisters the product and users can no longer access that product. **If you did not mean to delete the selected account**, click **No**.

SQL Inventory Manager lets you discover and visualize your SQL Server environment. [Learn more](#) > >
